

Industrial Touchscreen HMIs

Advanced and High-Performance HMIs

Touchscreen HMI panels offer greater flexibility and a seamless user experience. Their integrated display and touch controls let designers create customized screens with the controls and data needed for specific applications.

End date: Oct 30, 2026

	Advanced HMI Series		High-Performance HMI Series	
Product Number	cMT2108X2v2	cMT3072XH3	cMT3218XP	
Description	10.1" Touchscreen HMI with IIoT Features	7.0" Touchscreen HMI with IIoT Features	21.5" Touchscreen HMI with IIoT Features	
	Quad Core processor allows for the HMI project and PLC project to run on its own processor			
	Wireless Compatibility via M02 Wi-Fi Expansion Module*	Recipe, PDF Reader	Full HD Display, Portrait or Landscape	
	High-Speed Screen Update			
	Built-In Edge Gateway Function			
	E-mail Alarm Notification	SQL Database, Database Server, OPC-UA Server
